12 Products not intended for direct skin contact, minimal or insignificant transfer to skin	100,00000

For further information on the quantitative risk assessment (QRA) we refer to IFRA and RIFM websites www.ifraorg.org and www.rifm.org. This certificate, therefore, does not provide safety assessment of all product constituents. IFRA conformity does not relieve individual manufacturers from the obligations to comply with all relevant local, national or international regulations. It is the ultimate responsibility of our customers to ensure the safety of the final consumer products by further safety assessment.

This certificate reflects our current state of knowledge and replaces former IFRA declarations for fragrances in same product types.

This document is generated electronically and is valid without signature.
